

## About us

As ZLD Ltd is our commitment to bring professionalism, good service and trust to the buildings renovation service and maintenance business.

We take immense pride in sending some of the most dedicated professional handymen and trustworthy technicians who can guarantee your home, institution, industry or multi- function building is maintained to the highest of standards.

Through discussing your needs and understanding what is important to you, we build a quality system that translated into reliable services. Through online or offline services.

## Vision

To be the undisputed regional leader in building renovation and maintenance services

## Mission

To insure the long-term collaboration of value with our customers by providing a fast and reliable building renovation and maintenance services.

## Principle

Serving with enthusiasm, as though we're serving the Lord.

## Services

- **Reactive maintenance:** In the event of an emergency, you need a reactive maintenance company that your home or business can rely on. ZLD Ltd can provide you with a reactive service, so that should a situation arise - we have the trades ready to assist you. Ensuring the smooth running of your daily operations, keeping your loss to an absolute minimum.
- **Planned preventive maintenance:** It's natural for building and its components to degrade over time, but it doesn't necessarily have to fail. Preventive Maintenance Services from ZLD Ltd will evaluate the condition of your property and determine the most cost-effective and manageable solution to ensure its overall performance, safety and reliability.
- **Cleaning services:** Maintaining a safe, sanitary workplace is key to producing quality life. Our experts at ZLD Ltd provide detailed both in house and out house cleaning services for our valued customers, designed to keep your property

looking its best all year round. We offer different cleaning frequencies according to your needs and preferences.

- **Buildings renovation:** Our experience and Building knowledge allows us to improve, update and repurpose infrastructure by adding its value and enabling a positive change. We provide professional, hassle free and affordable service to handle any renovation project large or small efficiently.
